Trunk or Treat!

Last Friday marked our first ever Trunk or Treat! Our students came dressed ready for festivities and left with loads of candy. Thank you to all of our families who joined us with their trunks! We can't wait to do it again next year!!

Norcross City Field Trip

Our middle schoolers explored the Norcross Cultural Arts & Community Center, the Norcross Welcome Center & History Museum, a local park, fire station, and police station thanks to the kindness of our community helpers and the Norcross Downtown Manager, Stephanie Newton, who organized our trip.

Teddy Bear Hospital

Our Kindergarten, First, Second, and Third Graders took a trip to the Teddy Bear Hospital! Students took their stuffies to orthopedic, neurology, and nutrition stations before stopping by the pharmacy to fill their stuffed animal's candy 'prescription'. Thank you to our Teddy Bear Hospital volunteers for introducing our students to health science learning in such an exciting and relateable way!

Fall Fun

Recent art enrichment has focused on giving students the opportunity to participate in exciting seasonal activities. Our middle schoolers carved pumpkins, upper elementary students painted mini pumpkins, and our younger elementary schoolers have been adding to their 'Falll Forest' that has hedgehogs, owls, foxes, and now pumpkins!

Parent Learning

We have over 30 parents participating in our free English for Speaker of Other Languages (ESOL) classes! Classes are held virtually and scheduled throughout the week at times convenient for working schedules. We are able to offer these classes through University of Georgia volunteer instructors.

Thank You, ACR!

We are so proud to be an Affordable Community Resources (ACR) site through the Child and Adult Care Facility Program. Our partnership allows us to offer our students a free delicious and nutritious meal and snack each day! It is such a blessing to work with an organization that cares so much about the community; providing extra meals for early release and for our Trunk or Treat! Thank you, ACR!!
