Fun Field Trips and Hands-on Learning

Fire Station Field Trip

Early elementary school students visited our local fire station to meet fire fighters, learn fire safety, and interact with fire-fighting equipment.

Planetarium Dome

All students K-8 got to explore space with the GEHC's Discovery Dome, learning about the planets, stars, and solar systems through immersive projections.

Georgia Aquarium

Older elementary and middle school students took a trip to the Georgia Aquarium for a fun day of oceanographic learning with dolphins, sharks, penguins, and more!

Summer Carnival

This year's summer camp ended with our first ever Summer Carnival! Parents, siblings, aunts, uncles, and grandparents were invited in for family fun, creating stronger community connections.

Thank you!

Thanks to the generosity of Perimeter Church, which provided backpacks and school supplies, our students are able to start the school year strong. We also appreciate Proximity Gap Network for helping us provide transportation throughout the summer.

Associated Credit Union made a much appreciated donation of a \$100 gift card for our Summer Carnival raffle. Congratulations to our winner, 3rd grader Camila, and thank you ACU for making our raffle possible!
